COMPANY PROFILE

We avail this opportunity to introduce ourselves as one of the largest perforators of sheets. We are well equipped to process the metal, in thickness ranging from 0.30 to 5.00 mm in numerous types of patterns and sizes available but there are many other sizes, intermediate of these and we can supply in perforated metal requirement, whatever the end use be.

In addition to iron and steel, we do perforate copper, brass, bronze, aluminum, lead, zinc and tin plates, as well as paper, boards, plastic, asbestos sheeting including cloth. We also perforate monel and precious metal sheets.

“AMPI” Cock Brand metal perforated sheets meet your requirements of screening of coal, coke, gravel and ore to the straining and separating of food products, fine chemicals and oils. They can be also decorative as well as functional, as in the use of radiators guards, ceiling and wall panels, litter bins, etc. We are manufacturing perforated sheets in customer’s own specification, also, other then our regular sizes and ranges. We have a long list of satisfied clients. We understand that your good selves are also one of the potential customer of such sheets.

We request you to favour us with your requirements, specifications/drawing, etc. enabling us to offer our special prices and attractive terms. We anxiously look forward to receive your esteemed query.

Umesh Agarwal, CEO
